

## Storm Social Story

The weather changes a lot. Sometimes it is windy.

Wind is a part of a weather forecast.

When we have strong severe wind, we call it a storm.

During a storm I can keep safe at home with my family.

The wind might sound noisy

The wind might look scary

Sometimes the wind can affect the electricity supply to the house.

I don't need to be scared. I can talk to my family about the wind.

Things I can do to help me stay calm....

I can play with my favourite things in my house .....

Doing this will help me feel happy and safe.

The storm will be over soon.
